PROFESSIONAL EXPERIENCE

2001 - Present **Member, Board of Directors, National Veterans Business Development Corporation**

- **Appointed in October 2001 by the 43rd President, President George W. Bush**, to a four-year term on the Board of Directors for the National Veterans Business Development Corporation. The Board provides policy guidance and oversight for the development and implementation of information and resource programs to assist veterans in their entrepreneurial and small business activities.
- Elected as **Chairman of the Board** in December 2003, reelected in November 2004; provide strategic leadership for the Board of Directors and the Corporate staff. Oversee all Board meetings and activities, as well as provide the necessary guidance and oversight of the Corporate staff in the development and implementation of effective Corporate policies, programs and procedures to achieve the Corporation's mission and goals.
- Elected as **Vice Chairman of the Board of Directors** in October 2002; provided overall leadership and guidance for Board activities, including coordination with OMB, Office of Presidential Personnel and majority staff members on the Senate & House Small Business and Veterans Affairs Committees.
- Elected as **Chair of the Corporate Governance Committee** in June 2002, reelected in January 2003 and December 2003; developed the NVBDC Strategic Plan and Business Plan, as well as major corporate governance policies and the infrastructure for three major Board committees. Worked closely with the Corporate staff in developing their annual Corporate Objectives and Initiatives for implementation in support of the Corporate Goals, as well as establishing effective Corporate staff procedures in support of Board policies.

1997 - Present **Founder & President, ENTERPRISE TRANSFORMATION GROUP, Ltd.**

1992 - Present **Founder & President, TED LEWIS & ASSOCIATES**

- Provide consulting services, workshops, seminars & executive briefings on strategic management and information technology issues to over 50 major clients in business, government & education in the United States, Canada, Europe, Asia & Latin America. Over 133 seminars and workshops presented for major clients and at 33 conferences worldwide.
- Areas of focus include: change management, organizational transformation, global value chain management, strategic planning, enterprise architecture, logistics management, e-business, supply chain & customer relationship management, business process management & reengineering, knowledge management, information resources management, enterprise resource planning systems, e-government & information systems project management.
- Participated on various Boards of Directors and Boards of Advisors for Colorado organizations to include: I.COM Group, Pelion Systems, WhiteWind Group, AFCEA, Colorado Open Systems Consortium, Rocky Mountain Information Management Association, Informatics Corporate Learning, and the CIS Department, University College.
- Chaired two conferences on the National Information Infrastructure in 1995 and 1996 which focused on reinventing government using information technology more effectively; actively participated in developing and implementing the BPR '98 and '97 European Conferences and the 1996 U.S. NBPR Conference.
- Published articles on reengineering, workflow, ERP and E-Business issues in Enterprise Reengineering (USA) and Data Manager (Italy); seminar papers published in various conference proceedings sponsored by Delphi Group, DCI and SCI; chapter on reengineering excellence published in Reengineering in Action.

**1989 - 1991 Chief Information Officer and Assistant Secretary
for Information Resources Management, Department of Veterans Affairs,
U.S. Government (PAS, EX-IV)**

- **Appointed by the 41st President, President George H. W. Bush**, and confirmed by the U.S. Senate.
- Responsible for overseeing a large information technology environment, including over 4,300 IT employees, a \$600 million annual IT budget, four large data processing centers, and all major information technology projects supporting over 1000 corporate and field offices, including a \$298 million office automation project, a \$40 million mainframe replacement project, and the installation of a \$28 million/year enhanced private, packet-switched Wide Area Network.
- Developed and implemented first integrated information resources planning and budgeting process, resulting in comprehensive information resources strategic plan; first information resources policy and standards process, producing first Lifecycle Documentation Standards Handbook; first 10-year information technology assessment; and first organization-wide information systems architecture.
- As a member of several Federal interagency IT committees, helped develop government-wide IT plans, policies, standards, and procedures.
- As a member of the Federal interagency Committee on Industry and Technology, helped assess leading-edge technologies, including high performance computing, neural networks, artificial intelligence, advanced materials, software, and hardware.

1988 - 1989 Bush/Quayle Presidential Campaign & Transition

- As **Deputy White House Liaison at DoD**, assisted in the smooth transition of recruiting, selecting and assigning over 200 key senior civilian personnel in the military departments and major DoD agencies.
- As **Director, Resume Management Process, Presidential Transition**, led 180 people in the design, development and implementation of the first detailed, automated resume management process used in a Presidential Transition. Over 60,000 resumes and letters of recommendations were processed in seven weeks, to effectively support the political process in the identification, selection and assignment of key personnel within the new Administration; coordinated effective transfer of this process and data to the Office of White House Presidential Personnel.
- As **Manager, Management Support Services, National Campaign Headquarters**, led 15 campaign workers in overseeing the coordination & assignment of campaign volunteers, the manual resume management process, and the distribution of campaign literature in direct support of the Presidential General Campaign.
- As **Manager, Delegate Tracking, Presidential Primary Campaign**, led 25 campaign workers in the development and use of an automated convention delegate tracking system to support the political advisors during the Primary Campaign and at the National Republican Convention.

1967 - 1988 United States Marine Corps

Member, Advanced Amphibious Study Group

- Supported the Commandant of the Marine Corps on the development strategic policies & programs.
- Developed new and innovative competitive strategic planning initiatives for military forces as a member of the Defense Strategy Development Group.
